The United States Department of Education has instituted new regulations on the for-profit and vocational education sector effective July 1, 2011. Known as Gainful Employment, the regulations mandate that providers of vocational education participating in federal Title IV financial aid programs disclose graduation and job placement rates and median amount of student debt levels to prospective students. The data below summarizes these metrics.

**Example of formula for calculating Program Costs (Electrical Apprentice):**

44.5 contact hours x 100/hr. (tuition and fees) + \$1250 books and supplies + \$2500 room and board + \$700 personal + 700 transportation = \$9600 in-district. Out-of district: 44.5 x 150 plus (books, supplies, room and board, personal, transportation) = \$11,825. Out of State: 44.5 x 200 plus (books, supplies, room and board, personal, transportation) = \$14,050.

**Cost Breakdowns (2009-10 tuition and fees):**

Millwright Apprentice (Advanced Certificate): 87.5 contact hours
